PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, React.js, DevOps, Data Analytics, Generative AI, and Agentic AI. Familiar with Docker, Kubernetes, AWS, Git, CI/CD, ETL workflows, LLMs, and AI APIs. Interested in developing scalable web applications, automated deployment pipelines, and practical AI-powered solutions.

EDUCATION

B.Tech in Information Technology – Medi-Caps University CGPA: 6.21/10	2022–2026 Indore, Madhya Pradesh
Higher Secondary (12th) – Gayatri Shiksha Niketan Percentage: 89.8%	2020–2021 Khargone, Madhya Pradesh
Secondary (10th) – Govt. Excellence School No. 1 Percentage: 90.8%	2018–2019 Khargone, Madhya Pradesh

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js
Backend: Python, Flask, Django, FastAPI, REST APIs
Database: MySQL, SQL, SQLite, PostgreSQL
Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn
DevOps & Cloud: Docker, Kubernetes, AWS, Jenkins, Terraform, CI/CD
Tools: Git, GitHub, VS Code, Jupyter Notebook, PyCharm, Alteryx
AI Technologies: Generative AI, Agentic AI, LLMs, Prompt Engineering
Soft Skills: Problem Solving, Adaptability, Teamwork, Communication

PROJECTS

ResumeMate AI – Resume Builder & ATS Analyzer <i>React.js, Python, FastAPI, SQLite, Tailwind CSS, REST APIs</i> - Developed a full-stack resume builder to create, edit, and download professional resumes. - Built an ATS analyzer and job-description matcher to identify relevant keywords and evaluate resume content. - Integrated REST APIs and SQLite for data storage and deployed the application through Vercel and Render.	Live Demo
Apex AI – Full-Stack AI Chatbot <i>React.js, Python, FastAPI, Groq API, SQLAlchemy, PostgreSQL</i> - Developed an AI chatbot with streaming responses, multimodal file uploads, and a responsive glassmorphic interface. - Integrated AI-powered conversations, live web search, Python code execution, and persistent chat history.	Live Demo
Punjabi-Tadka – Food Ordering Web Application <i>React.js, JavaScript, Python, REST APIs, Database</i> - Developed menu browsing, cart management, and order placement. - Built an admin panel to manage customer orders and update order statuses through frontend and backend APIs.	Live Demo

INTERNSHIP EXPERIENCE

Full Stack Python Trainee – Naresh i Technologies Hyderabad, Telangana, India	<i>May 2026 – Present</i>
- Currently pursuing Full Stack Python training to develop skills in Python programming and full-stack web development. Portfolio: View My Portfolio	
DevOps Intern – Datagami Technology Services Indore, Madhya Pradesh	<i>Jan 2026–Feb 2026</i>
- Deployed React applications using Docker and Kubernetes; configured Deployments, Services, and rolling updates. - Used Git and CI/CD workflows for automated builds and deployment.	
Generative AI & Agentic AI Intern – Datagami Technology Services Indore, Madhya Pradesh	<i>Feb 2026–March 2026</i>
Built Python applications using LLMs and AI APIs; applied prompt engineering and agentic workflows for automation.	
Data Analytics Intern – Alteryx Focus Indore, Madhya Pradesh	<i>Jun 2025–Aug 2025</i>
Created ETL workflows using Alteryx Designer and worked with Join, Filter, Summarize, Formula, and Cross Tab tools.	

CERTIFICATIONS & ACHIEVEMENTS

Agentic AI – EduDron (2026)	Generative AI – EduDron (2026)
DevOps Foundation – EduDron (2026)	Python Programming – DataFlair (2023)
Python Essentials 1 – Cisco Networking Academy (2025)
