PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Python, React.js, DevOps, Data Analytics, Generative AI, and Agentic AI. Familiar with Docker, Kubernetes, AWS, Git, CI/CD, ETL workflows, LLMs, and AI APIs. Interested in developing scalable web applications, automated deployment pipelines, and practical AI-powered solutions.

EDUCATION

B.Tech in Information Technology – Medi-Caps University

CGPA: 6.21/10

2022–2026

Indore, Madhya Pradesh

Higher Secondary (12th) – Gayatri Shiksha Niketan

Percentage: 89.8%

2020–2021

Khargone, Madhya Pradesh

Secondary (10th) – Govt. Excellence School No. 1

Percentage: 90.8%

2018–2019

Khargone, Madhya Pradesh

SKILLS

Frontend: HTML, CSS, Bootstrap, JavaScript, React.js

Backend: Python, Flask, Django, FastAPI, REST APIs

Database: MySQL, SQL, SQLite, PostgreSQL

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn

DevOps & Cloud: Docker, Kubernetes, AWS, Jenkins, Terraform, CI/CD

Tools: Git, GitHub, VS Code, Jupyter Notebook, PyCharm, Alteryx

AI Technologies: Generative AI, Agentic AI, LLMs, Prompt Engineering

Soft Skills: Problem Solving, Adaptability, Teamwork, Communication

PROJECTS

ResumeMate AI – Resume Builder & ATS Analyzer

[Live Demo](#)

React.js, Python, FastAPI, SQLite, Tailwind CSS, REST APIs

- Developed a full-stack resume builder to create, edit, and download professional resumes.
- Built an ATS analyzer and job-description matcher to identify relevant keywords and evaluate resume content.
- Integrated REST APIs and SQLite for data storage and deployed the application through Vercel and Render.

Apex AI – Full-Stack AI Chatbot

[Live Demo](#)

React.js, Python, FastAPI, Groq API, SQLAlchemy, PostgreSQL

- Developed an AI chatbot with streaming responses, multimodal file uploads, and a responsive glassmorphic interface.
- Integrated AI-powered conversations, live web search, Python code execution, and persistent chat history.

Punjabi-Tadka – Food Ordering Web Application

[Live Demo](#)

React.js, JavaScript, Python, REST APIs, Database

- Developed menu browsing, cart management, and order placement.
- Built an admin panel to manage customer orders and update order statuses through frontend and backend APIs.

INTERNSHIP EXPERIENCE

Full Stack Python Trainee – Naresh i Technologies

May 2026 – Present

Hyderabad, Telangana, India

- Currently pursuing Full Stack Python training to develop skills in Python programming and full-stack web development.
- Portfolio:** [View My Portfolio](#)

DevOps Intern – Datagami Technology Services

Jan 2026–Feb 2026

Indore, Madhya Pradesh

- Deployed React applications using Docker and Kubernetes; configured Deployments, Services, and rolling updates.
- Used Git and CI/CD workflows for automated builds and deployment.

Generative AI & Agentic AI Intern – Datagami Technology Services

Jan 2026–Feb 2026

Indore, Madhya Pradesh

- Built Python applications using LLMs and AI APIs; applied prompt engineering and agentic workflows for automation.

Data Analytics Intern – Alteryx Focus

Jun 2025–Aug 2025

Indore, Madhya Pradesh

- Created ETL workflows using Alteryx Designer and worked with Join, Filter, Summarize, Formula, and Cross Tab tools.

CERTIFICATIONS & ACHIEVEMENTS

Agentic AI – EduDron (2026)

Generative AI – EduDron (2026)

DevOps Foundation – EduDron (2026)

Python Programming – DataFlair (2023)

Python Essentials 1 – Cisco Networking Academy (2025)
